Ultra 510-FX48 Computer Workstation

The Ultra 510-FX48 is a strong and durable, all-in-one 1.22 metre (48") tall computer workstation that is secured to the floor via a 200mm x 200mm (8" x 8") floor plate. The Ultra 510-FX48 provides provision for attaching an LCD monitor, keyboard, mouse and CPU holder on a single cable managed 50mm (2") diameter pole.

Monitor, keyboard and mouse are attached directly to the pole on a single or double extended adjustable combination arm providing a maximum extension of 600mm from the pole. The keyboard and mouse tray flip up when not in use to further reduce the footprint. The keyboard can be set at 960mm - 1230mm (38" - 48") from the floor. The attached adjustable CPU holder is supplied in narrow width 50mm - 116mm (2" - 4.6") or standard width 100mm - 205mm (4" - 8.4"). Compatible with monitors with VESA MIS-D 75mm / 100mm up to 8.16kg in weight and 24" monitor size. White, light grey or black finish.
