Wall / Pole Mount CPU Holder

Ultra Series Wall Mount / Pole Mount CPU Holder

The Ultra CPU series of CPU mounts are the ideal solution for safely attaching your computer CPU unit to the desk or wall (virtually any vertical surface) or to a pole using a 50mm (2") pole clamp.

This medical grade mount suspends your CPU unit off the floor reducing the potential of damage via static shock, moisture and dust - all helping to extend the life of your computer. For maintenance, a hole key wall plate is provided so that the CPU unit can be safely and easily removed from the desk, wall or pole.

Ultra CPU holders are available in 4 sizes to suit most tower and desktop style CPUs on the market and come fully assembled for quick and easy installation.
