

VisionPro 500 Series iPad Mounting Solution

The ErgoMounts EMVP501S-iPad is a unique revolutionary ergonomic mounting solution for the Apple iPad.

The iPad enclosure is manufactured from a single piece of solid aluminium, CNC machined and finished to the exact dimensions of the iPad. The enclosure can be manufactured to integrate a number of security features minimising tampering and interference. Namely the home button, volume control and power button can be blanked off and the power and data socket enclosed in the holder. This ensures that it cannot be removed from the mount enabling it to be used in retail environments for use by the general public.

The enclosure is designed to be compatible with the 500 series of ergonomic arms, allowing optimisation of the viewing angles. Both components perfectly compliment one another's sleek curves and contemporary design resulting in a highly aesthetic solution. A gas-strut and ball joint allows effortless adjustment to the height, tilt, swivel and orientation of the iPad. Available in desk or wall mount fitting with 540mm of reach and 460mm of height adjustment.

Silver finish as standard, black on request.

- Provides upto 540mm (21.2") reach, 460mm (18.1") height adjustment and 360° rotation around the base.
- +/-57° of monitor tilt and swivel plus landscape to portrait movement.
- Highly aesthetic, sleek design.
- Casing is exposed to eliminate interference with Wifi.
- Gas assisted height adjustment.
- Cable managed.
- Security, anti-tamper device.
- Desk clamp, bolt through desk or wall mount fitting.
- Silver finish as standard, black on request.
