EMDT-OM-FL

SEALED WATERPROOF MOUSE

Our innovative infection control solution, the AquaPoint™ optical mouse, offers the safety and convenience of a completely liquid proof pointing device. Constructed using the same materials that go into the popular SlimKey-MD™ family of medical keyboards, including an ABS polycarbonate case and an industrial silicone overlay, the AquaPoint™ can be disinfected using any hospital cleaning agent. It features a comfortable, ergonomic design, as well as the “click” feel of an office-grade mouse. Two button model. Its optical technology allows the AquaPoint™ to function on nearly any surface, while its rugged silicone overlay, polycarbonate frame and solid-state engineering all ensure the AquaPoint™ a long operating life. Supplied as standard with a USB interface along with a USB to PS/2 adaptor. White or black finish.
