# EMSK-102 SEALED KEYBOARD WITH INTEGRATED HULAPOINT DEVICE

SlimKey-MD medical keyboards are designed for the specific needs of healthcare environments and infection control. Ideal for use in operating theatres, wards, patients rooms, with medical carts or retractable workstations, the SlimKey-MD is a reliable waterproof keyboard that can be wiped down using hospital disinfecting sprays or germicidal wipes. The SlimKey-MD medical keyboard is also an excellent solution for space saving needs. An ultra-thin and compact unit, it measures only 20.3mm (0.8”) in height. Integrated HulaPoint pointing device removes the need for a separate mouse. UK layout with 12 function keys. USB or PS/2 interface versions available. Black finish.
