

EMSK-101-FL

MedicalMounts

SEALED BACKLIT KEYBOARD

The EMSLK-101-FL medical keyboard has both back-lighting and a large numeric pad. Resistant to dust, water and corrosive liquids, the EMSLK-101-FL is constructed using a fully sealed, industrial silicone keypad. Featuring extremely low profile keys, the SlimKeyMD is easily disinfected using any hospital cleaning agent, germicidal sprays and wipes. It boasts a rugged, ABS polycarbonate case and a compact, space saving design. For working in lowlight areas, FL series keyboards come with the added convenience of backlit keys. Other standard features include 12 function keys and an oversized numeric pad. White finish.
