MZ Series of Universal LCD / LED Plasma Mounts

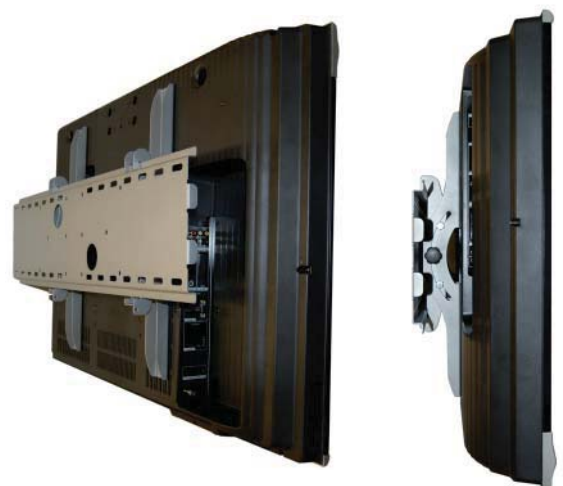

The MZ series provides a strong, durable wall mounting solution for plasma and LCD / LED TVs and monitors between 26" and 60". Installation could not be simpler. Simply attach the wall mount bracket to the wall, mounting arms to the back of Plasma/LCD and hook the two together.

The MZ series can provide between 5° and 15° of tilt dependent upon configuration allowing clearance for both power and scart cables.

Mounting arms can adjust to support VESA standards 100mm x 100mm, 200mm x 100mm, 200mm x 200mm and 400mm x 200mm, 600mm x 400mm and 800mm x 400mm.

Additionally each model incorporates built in adjustment to attach to non-VESA hole spacings.

Finished in silver or black.

The MZ Series are available in either fixed or tiltable variant to suit your installation requirements.

Both the fixed and tiltable MZ series models provide a strong, durable wall mounting solution for plasma and LCD, LED TVs and monitors. Installation could not be simpler. Simply attach the wall mount bracket to the wall, mounting arms to the back of Plasma/LCD and hook the two together.

Fixed

Fixed MZ series brackets enable the screen to be attached flat to the wall and secured via a slide in securing bar. A (customer supplied) padlock can be added to the securing bar to increase the security of the screen. MZ fixed models are also supplied with 5° tilt extension bars allowing the plasma or LCD / LED to be fixed close to the wall at a 5° downwards tilt. This also provides clearance for both power and scart cables and air circulation.

Three MZ fixed models are available, each with adjustable interfaces to suit different size screens. This enables the MZ series to be compatible with both standard VESA FDMI interface sizes including MIS-E and MIS-F and non VESA standard mounting hole patterns.

Key Features

- Mounts flat or 5° of downward tilt with additional extension
- Ultra low profile.
- Fits 99% of Plasma / large LCD – LED screens from 26" - 55" in size.
- Attaches screen to within 35mm of wall.
- Quick and simple to install.
- Supports Plasma / LCD – LED screens up to 75kg.

Tiltable

Tiltable MZ series brackets enable the screen to be secured to the wall whilst being able to tilt +/- 15°. Whilst modern LED-LCD / Plasma screens have far improved viewing angles, it is still recommended that the screens mounted above 1.80 metres be provided with the option of downwards tilt. This will increase the viewing angle to the average user and therefore increasing the viewing coverage for digital signage based applications.

The tiltable MZ series also provides additional clearance for both power and scart cables and air circulation.

Three MZ tiltable models are available, each with adjustable interfaces to suit different size screens.. This enables the MZ series to be compatible with both standard VESA FDMI interface sizes including MIS-E and MIS-F and non VESA standard mounting hole patterns

Key Features

- Mounts flat or +/-15° angle.
- Low profile.
- Fits 99% of Plasma / large LCD screens from 26" - 55" in size.
- Attaches screen between 0 and 75mm from the wall.
- Quick and simple to install.
- Supports Plasma / LCDs up to 75kg.

	<p>Part Number EMZ100</p>	<p>Description The EMZ100 series tiltable Universal LCD/Plasma Mount. Supports screens 37" - 50", VESA 200mm x 100mm, 200mm x 200mm, 400mm x 200mm, 600mm x 400mm. Non VESA screens with mounting holes between 60mm and 770mm horizontally and 80mm and 480mm vertically. Maximum screen weight 75kg. Wall bracket measures 820mm wide x 225mm high. Finished in silver.</p>

Part Number	Description
EMZ200	The EMZ200 series tiltable Universal LCD/Plasma Mount. Supports screens 37" - 50", VESA 200mm x 100mm, 200mm x 200mm, 400mm x 200mm, 600mm x 400mm. Non VESA screens with mounting holes between 60mm and 770mm horizontally and 80mm and 480mm vertically. Maximum screen weight 75kg. Wall bracket measures 905mm wide x 225mm high. Finished in silver.
EMZ200B	The EMZ200 series tiltable Universal LCD/Plasma Mount. Supports screens 37" - 50", VESA 200mm x 100mm, 200mm x 200mm, 400mm x 200mm, 600mm x 400mm. Non VESA screens with mounting holes between 60mm and 770mm horizontally and 80mm and 480mm vertically. Maximum screen weight 75kg. Wall bracket measures 905mm wide x 225mm high. Finished in black.
EMZ280	The EMZ280 series tiltable Universal LCD/Plasma Mount. Supports screens 37" - 60", VESA 200mm x 100mm, 200mm x 200mm, 400mm x 200mm, 600mm x 400mm and 800mm x 400mm. Non VESA screens with mounting holes between 60mm and 865mm horizontally and 80mm and 480mm vertically. Maximum screen weight 75kg. Wall bracket measures 905mm wide x 225mm high. Finished in silver.
EMZ280B	The EMZ280 series tiltable Universal LCD/Plasma Mount. Supports screens 37" - 60", VESA 200mm x 100mm, 200mm x 200mm, 400mm x 200mm, 600mm x 400mm and 800mm x 400mm. Non VESA screens with mounting holes between 60mm and 865mm horizontally and 80mm and 480mm vertically. Maximum screen weight 75kg. Wall bracket measures 905mm wide x 225mm high. Finished in black.
EMZ400	The EMZ400 series tiltable Universal LCD/Plasma Mount. Supports screens 26" - 36", VESA 100mm x 100mm, 200mm x 100mm, 200mm x 200mm, 400mm x 200mm. Non VESA screens with mounting holes between 60mm and 460mm horizontally and 80mm and 335mm vertically. Maximum screen weight 75kg. Wall bracket measures 510mm wide x 210mm high. Finished in silver.
EMZ400B	The EMZ400 series tiltable Universal LCD/Plasma Mount. Supports screens 26" - 36", VESA 100mm x 100mm, 200mm x 100mm, 200mm x 200mm, 400mm x 200mm. Non VESA screens with mounting holes between 60mm and 460mm horizontally and 80mm and 335mm vertically. Maximum screen weight 75kg. Wall bracket measures 510mm wide x 210mm high. Finished in black.
